

Petrotrin EAP Services Limited (PEAPSL) expands client base

Petrotrin EAP Services Limited (PEAPSL) recently started operations at its Tobago base as part of an expansion drive to meet the needs of its growing client base.

Coral Alleyne-Smith**

The office, located on the outskirts of Scarborough, has been ideally positioned to ensure the maximum comfort of PEAPSL's clientele, offering a lush, serene environment, with an expansive view overlooking the blue Tobago waters. The location provides the quiet solitude of a sanctuary space accompanied by the professional air of what has come to be the norm for PEAPSL service offerings.

On entering the compound clients can choose to linger at the poolside, in the veranda overlooking the mountaintop, or within the comfort of the resort inspired waiting area.

PEAPSL hopes in the long term to expand its training and intervention suite of services to include the full use of the resort-inspired location to the benefit of its clientele. This newest office location will be officially launched in October.
