

ENVIRONMENTAL POLICY STATEMENT

HSE-001R

The Petroleum Company of Trinidad and Tobago (Petrotrin) is an integrated energy company involved in the exploration and production and refining and marketing of energy resources. Petrotrin recognizes the need to exist as a viable commercial entity without compromising the integrity of the environment and is therefore committed to the principle of sustainable development and continual improvement of its environmental performance at Petrotrin. Petrotrin shall incorporate environmental management into its business activities and shall:

- 1. Ensure that its operations comply with all applicable environmental legislation of Trinidad and Tobago, the Corporate and Industry Standards to which the company subscribes, and where feasible, adopt standards where appropriate legislation is, or may be inadequate.*
- 2. Support research and work with the industry, government and other public agencies to establish realistic environmental standards.*
- 3. Ensure appropriate and cost effective waste and emissions management programmes are implemented for the prevention and control of pollution.*
- 4. Ensure that all employees are informed of their individual responsibilities and are trained and empowered in their actions to be taken towards managing the environment.*
- 5. Anticipate potential emergencies arising out of the Company's operations that could threaten the natural environment and prepare appropriate plans to ensure a prompt and effective response to these emergencies.*
- 6. Engage in environmental performance assessment through periodic reviews of environmental objectives and targets, audits and practices.*
- 7. Effectively communicate the environmental management policy and programmes to its stakeholders.*
- 8. Promote a culture, which fosters a sharing of this commitment by all Petrotrin employees.*

Malcolm A. Jones
Executive Chairman
